“When Elizabeth heard Mary's greeting, the baby leaped in her womb, and Elizabeth was filled with the Holy Spirit” (Luke 1:41).

The Bible teaches truths about the universe and us that science cannot discover from inside a test tube, under a microscope, or at the end of a telescope no matter how advanced. Modern science excludes God from its experiments, investigations, and conclusions. From the Bible, we learn that God creates everyone in the image of God. From the Bible, we learn that God creates everyone with awesome potential; people such as Moses whom God used to free the Hebrews from slavery. From the Bible, we learn that God can fill a tiny unborn baby with the Holy Spirit and babies can respond to their surroundings, for as an unborn baby John the Baptist leaped for joy in his mother's womb. Then when full grown, the Holy Spirit in John empowered him to preach and prepare people for the coming of God's Son into the world. From the Bible, we learn that through the overshadowing of the Holy Spirit God could conceive a baby in a virgin that would be fully God and fully human before He was born. Then, unlike the false gods and demigods of mythologies and novels that are capricious and immoral, Jesus, the Son of God, lived a perfectly moral and spiritual life. He taught the truth about God and reality. Because He loved the world, He died a sacrificial death to save believers in Him from Satan and sin. The Bible teaches us the most important truths about God and ourselves; truths that do not change but reveal deeper meaning with study and prayer; truths that will make an eternal difference if we live according to them.
